ABOUT SCORE GRASS

Our Vision:

- ▶▶ Score Grass impress the word, builds a new future for everybody on sports and leisure.

Our Mission:

- ▶▶ Being one of the most reputable international companies on developing best products and services for all sport facilities and leisure activities

About the factory

The factory is established in Ataq Industrial Area-North Suez Bay, on 4500 m² closed area within a total land of 12000 m², it has currently an annual production capacity of 3 million m², but we are planning to reach 6 million sqm per annum.

We only use the best European raw materials and all our machinery are EU origin as well.

Football System

Score Grass offers a wide range of solutions for creation of latest generation synthetic turf football pitches, to be ideal for satisfying every need, from amateur to professional games.

Score Grass Turf System For Football Fields:

- 1- Original SBR Rubber infill.
- 2- Rubber EPDM infill.
- 3- Geofill system.
- 4- Non-infill system.
- 5- Hybrid grass.

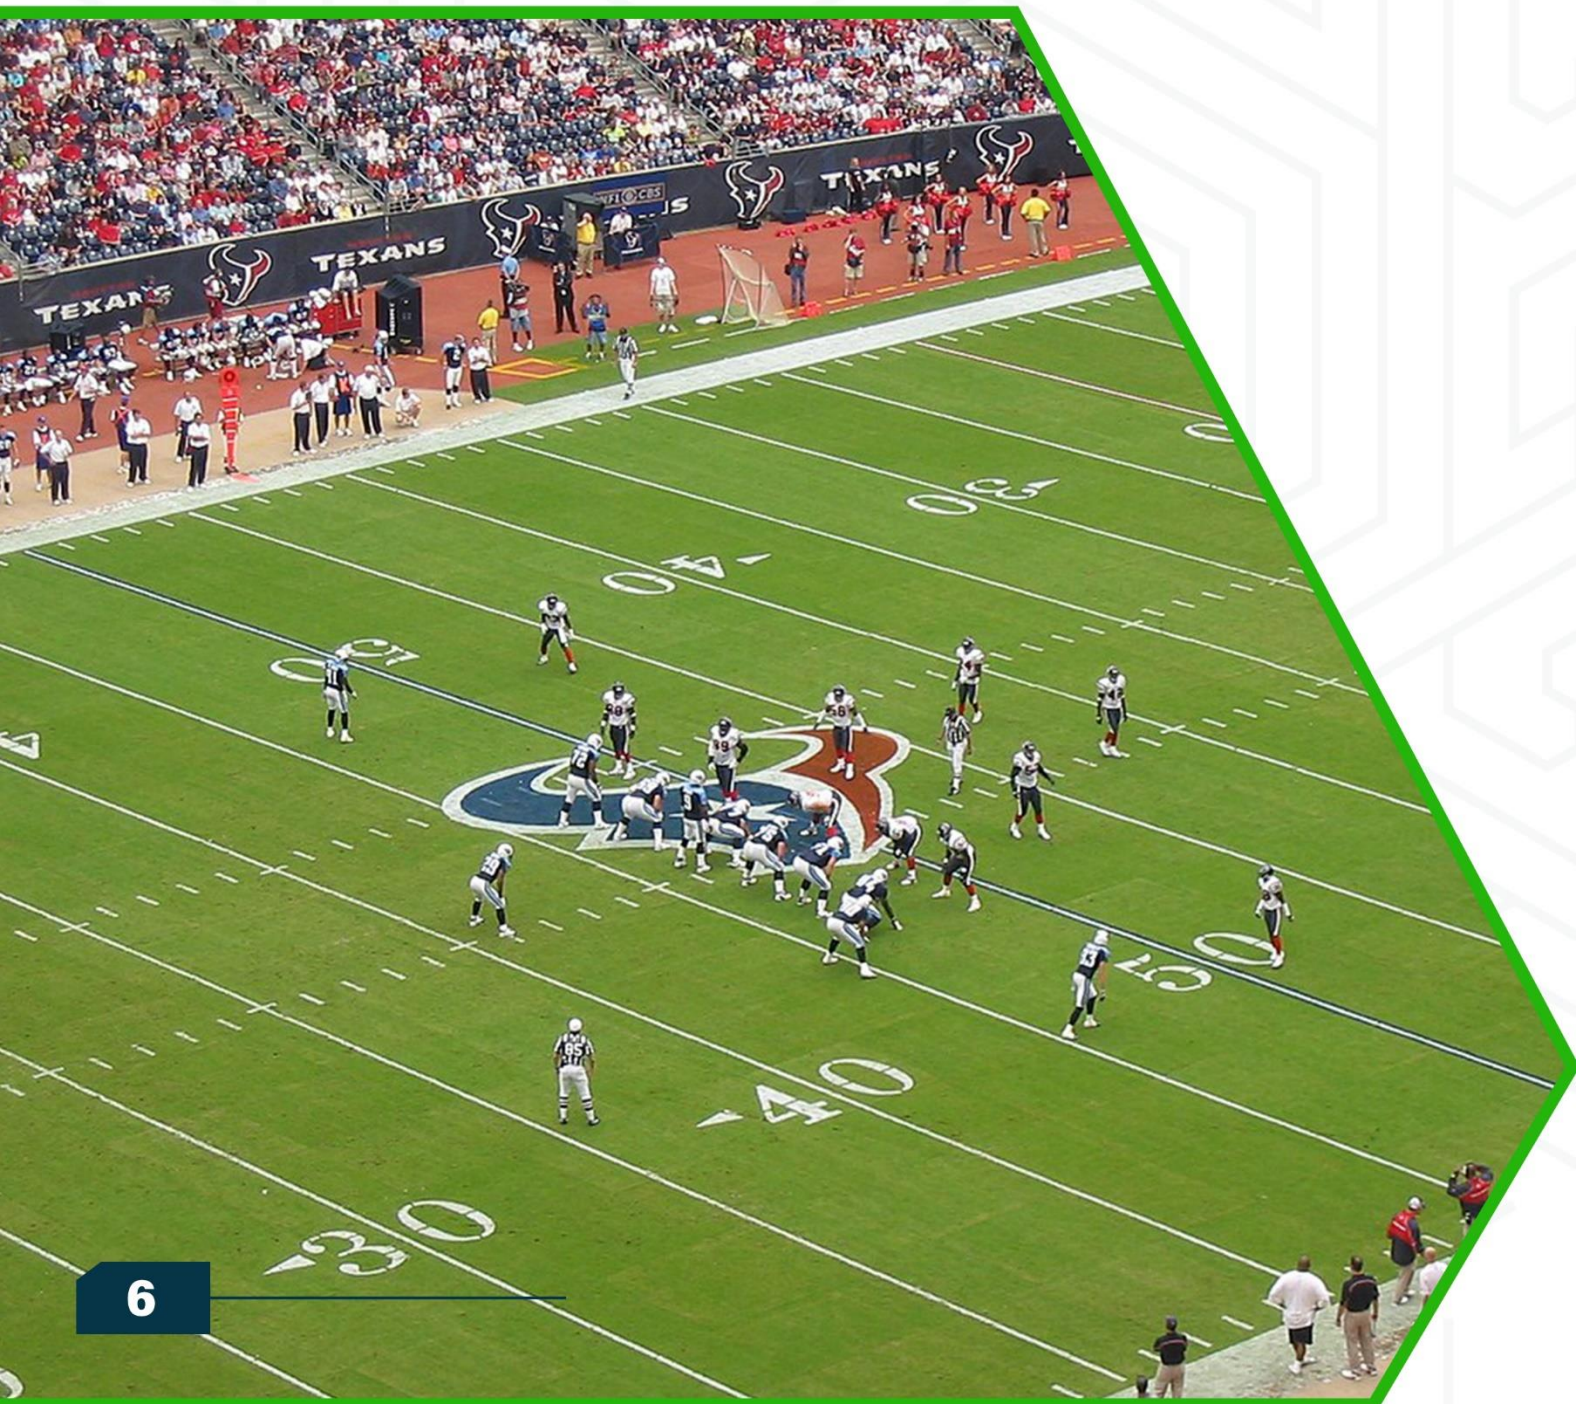

Italian Style Mix Green, 60mm pile, dual xn plus

Zig-Zag patterned turfed

Packing with Polyurethane coating

American Football

- ▶▶ Our artificial grass systems for rugby fields are ideal for both professionals and rugby schools. Score Grass synthetic grass systems also includes solutions that can be homologated for both rugby and football.
- ▶▶ It does not contain dust deriving from the shredding of other organic materials that could limit the drainage of the field.

Monofilament with a semi-concave and thickness

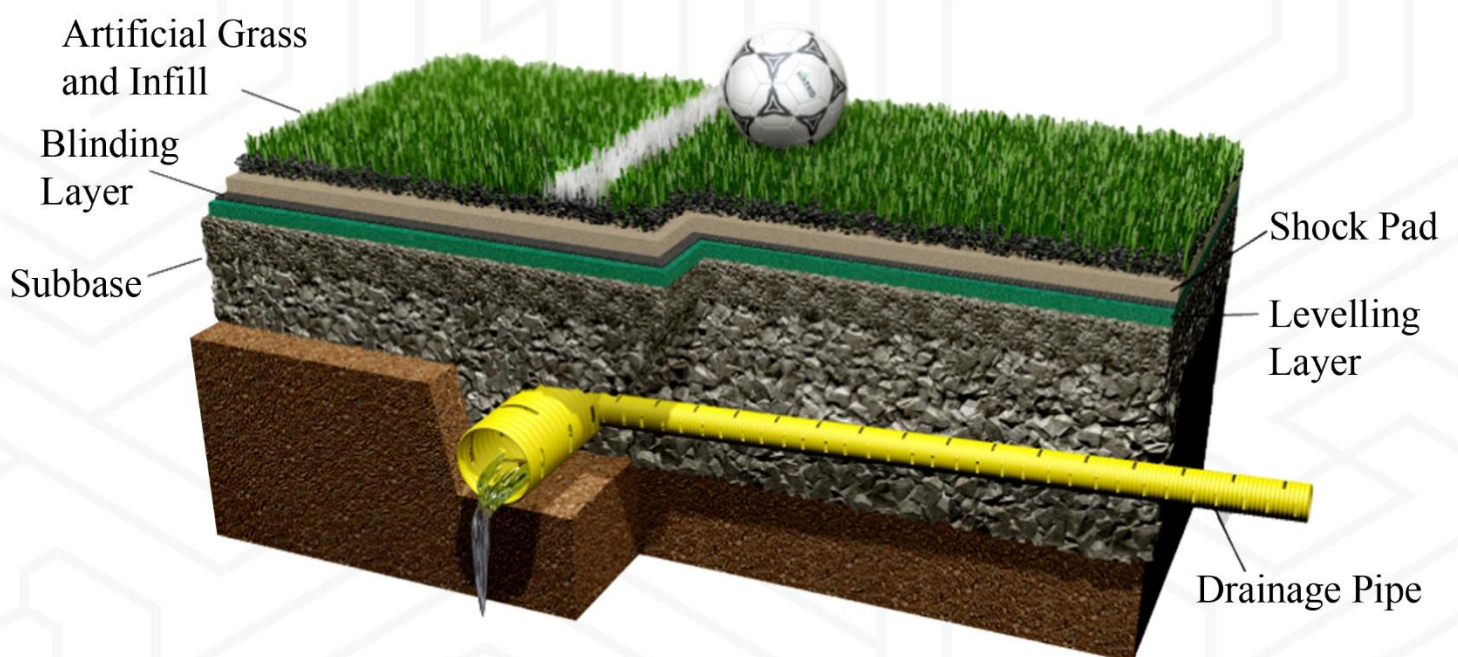

Granulated Cork performance infill for artificial turf pitches

Packing with Polyurethane coating

Elastic underlayment made from expanded Polyurethane foam

▶▶ The Score Grass filaments with pre-fibrillated structure, simultaneously contribute to improve the turf's technical functions by holding the granules of performance infill in their place and providing excellent results in the Infill Splash

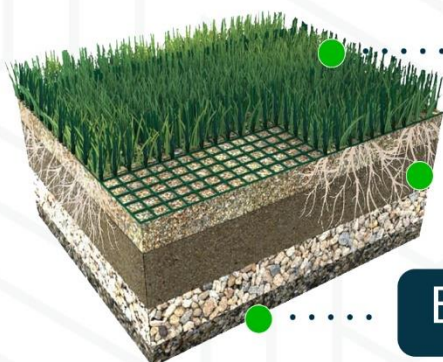

Football & Soccer

- ▶▶ It's a reality that the most played sports in the world are football and soccer. We produce and supply high quality artificial grass to create fields and playgrounds with different systems under FIFA Standards.

- 60mm Super Spine Triple Green, MF
- 55mm Super Spine Double Green, MF
- 50mm Super Spine Field Green, MF
- 45mm Green Liner, MF
- 40mm Green Pitches, MF

Superb Fiber

Free drainage, sand infill & recycle rubber

Base Stone

Hybrid Grass

- ▶▶ It is a product created by combining natural grass with synthetic reinforcing fibers. Grass roots were allowed to interline with a mix of sand and synthetic fibers as they grow
- ▶▶ It is used for football stadiums, training pitches for association football, rugby, American football, golf and baseball, also used in various events and concerts.

Non-Fill & Pad System

- ▶▶ No need for any scrumb rubber granules or other natural or synthetic infills, only a light infill by silica sand will be enough. Our non-infill football (multisport) grass performs as good as traditional sand and rubber infill artificial grass systems.
- ▶▶ Besides the performance, non-infill artificial grass is easier and faster to install, and it provides a cleaner surface and minimizes maintenance of the field.
- ▶▶ When you chose from our several types of non-infill football turfs, for sure you will find one that matches your football or soccer project successfully.

Padel Grass

- ▶▶ Score Grass offers two kinds of grass for padel; fibrillated and monofilament. Both are trailblazing models designed for players to be safer, more comfortable and to minimize the risk of injury.
- ▶▶ All meet the established official regulations and the latex backing with drainage holes to ensure water elimination on outdoor courts.

Discover what kind of our grass that best meet your need and then build up your perfect Padel Court

▶▶ They are available in several fibers and colors to magnify the ball visibility in different surroundings:

- Curly Brown 14mm – 25 Stc, 9000dtx, MF
- Padel Brown 12mm – 25 Stc, 8000dtx, Fbr
- Padel Black Grass 12mm – 25 Stc, 8000dtx, Fbr
- Padel Green Grass 12mm – 25 Stc, 8000dtx, Fbr
- New Padel Grass
- Padel Blue Curly, 14mm – 25 Stc, 9000dtx, MF
- Padel Master Blue, 12mm – 25 Stc, 9000dtx, MF
- Padel Master Green, 12mm – 25 Stc, 9000dtx, MF
- Padel Pro Max, 12mm – 25 Stc, 8000dtx Fbr

Padel Grass Master

- ▶▶ Score Grass has developed a wide range of synthetic turf systems for padel courts construction to meet the specific needs of all categories of players, from amateurs to professionals.
- ▶▶ A safe and high-quality system that offers a high level of performance and looks enjoyed by champions.

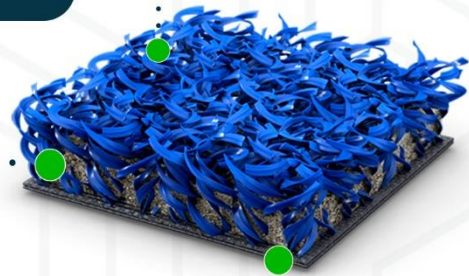

Available in colors:

Curled Gold Padel Grass

A thermo-mechanical treatment of the turf fibers which results in curled filaments

Polyurethane back coating

STX Padel MF Grass
Is a next-generation artificial turf system composed of STX monofilaments

Polyurethane back coating

- ▶▶ The straight fibers keep sand inside the turf and improve the stability of the court, while also reducing fiber and ball wear.
- ▶▶ All the system filaments are made of 100 % Polyethylene lubricated fibers to minimize the risk of abrasion if players slip during a game.

Multi - Sports

- ▶▶ We have a wide range of grass for tracks and multi - purpose complexes and fields, sport surfaces for local club leagues and recreational play.
- ▶▶ To make sure that children and athletes can enjoy safe and top - level sport surfaces.
- ▶▶ We develop artificial turf products dedicated for all sports applications at high quality standards.

- 11, 13 and 15mm Padel Grass
- 18, 20 and 22mm Tennis Grass
- 24 and 26mm Multi - Purpose Grass

Running Track

- ▶▶ An artificial grass running way is an all-weather running track for athletic fields.
- ▶▶ It provides a consistent surface for competitors to test their ability unencumbered by adverse weather conditions.
- ▶▶ Many examples of these varieties of artificial grass tracks still existing in many countries and places worldwide
